Motivated and detail-oriented DevOps Junior with hands-on training and background in operational coordination and logistics from military service. Solid knowledge in Linux, cloud, databases, and automation tools. Eager to grow and contribute within a DevOps team.

Education

2025: Nitzanim to Tech DevOps Program

- **Courses:** Linux System Administration (RH124, RH134), networking fundamentals, Python and Bash scripting, working with databases (MySQL, MongoDB), cloud computing with AWS (EC2, Lambda, S3, RDS, VPC, CloudWatch, EventBridge, Security Groups, Load Balancers), Kubernetes, Docker and container management, development & scripting fundamentals, end user computing, and Microsoft & corporate infrastructure (Active Directory, GPO, VPN, DNS), Advanced storage management.
- **Ongoing topics include** CI/CD, monitoring, web technologies, cybersecurity, and cloud architecture.

Skills

- **Programming Languages:** Python, C#, Java, HTML, XML.
- **Development platforms:** Windows, Linux (Red Hat, Ubuntu, CentOS).
- **Familiarity with databases and queries:** MySQL, MongoDB.
- **Experienced in:** Kubernetes, Docker, PowerShell, Bash scripting, AWS services (EC2, Lambda, S3, RDS, VPC, CloudWatch, EventBridge, Security Groups, Load Balancers), Git, GitHub, storage management (NAS, SAN, DaaS), networking (DNS, VPN, Active Directory, GPO).
- **Methodologies & tools:** Agile (Scrum, Kanban), JIRA.
- **Capable of learning new technologies, programming languages, and applications.**

Expected to gain experience in: Advanced storage management solutions | CI/CD pipelines and automation tools | Monitoring and log management systems (Prometheus, Grafana, ELK Stack) | Web technologies and system architecture | Cyber security fundamentals | Additional soft skills for industry readiness.

Military service

2019 – 2025: Israel Defense Forces / Southern Command

- **Operations Room NCO (Reserve Duty)** - Coordinated between command units, managed real-time data and operational reporting.
- **Company Sergeant Major (Reserve Duty & Active Duty)** - Managed daily logistics, facility maintenance, administrative processes, and soldier task allocation in the company. Coordinated logistical support for an additional reserve force during emergencies.
- **Permanent Personnel Courses Coordinator (Active Duty)** - Managed professional courses and training for career personnel in the Southern Command, including scheduling and coordination of participation.

Languages

Hebrew – Native | English - Fluent.
